

Cavalier Logistics is a privately held Veteran Owned Small Business specializing in full service logistics solutions to meet today's demanding environment in both the commercial and government sectors. Founded in the United States in 1985, Cavalier has gained a reputation for providing outstanding quality that continues to secure a loyal customer base.

Project Scope:

- The implementation of project started with developing test cases as per the application.
- ClicQA TCoE helped Cavalier to smoothly migrate from legacy testing practices to the latest and also helped to define a testing practice to meet their goals.
- With huge quantitative test cases along with functional and regression testing should be completed in lower man hours.
- Cavalier Logistics wanted to implement Test Automation within shortest time.
- We proposed our propriety Test Automation solution "ClicAutomate" as Cavalier Logistics wants to implement Test Automation at the earliest. ClicAutomate is built on a script-less test automation approach expedites automation testing.
- So, we leveraged ClicAutomate and implemented Test Automation 5 times faster than compared to open source
